

## Motivation letter for the election to the board of IJOC.

### Anna Lindqvist

With more than 13 years of experience of judging at the international top level, I would like to contribute to the continuous development of our sport within the board of IJOC.

One of the purposes of IJOC is to get Officials closer together and harmonize the art of judging around the world. With our club we can continue to network, create bridges between countries and share ideas and experiences.

Within the IJOC, and our colleagues and friends, I would like to contribute to the networking of officials. The idea of allowing Veterinarians is very good. It is with the understanding of the team of officials that we become successful!

If I get elected, I will do my very best to continue the work that has already been started by our new President and board. That is the work to be even more transparent with information and share decisions.

Our member-fee should be used as wisely as possible. I know the board of IJOC is already working with that, but I will try to continue the job to minimize costs of our meetings, and to maximize the efficiency to our members. Using Skype, which is free of charge, is one idea.

Also, the close work with the FEI is important to respect and develop. I think that we need each other to become an even better organization.
