

Clarification of 2017 placing pole rule

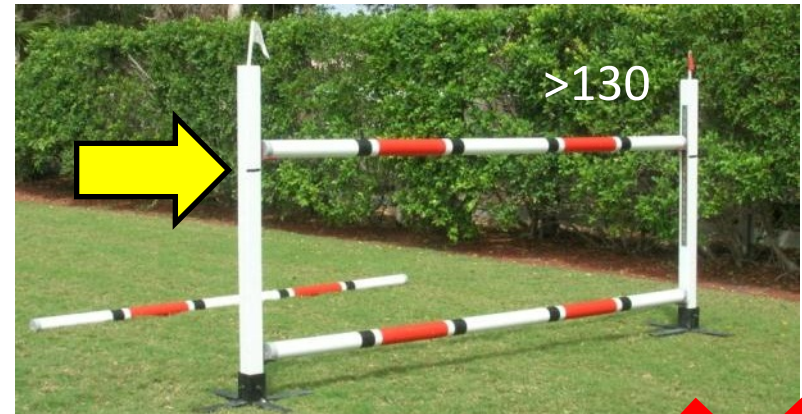

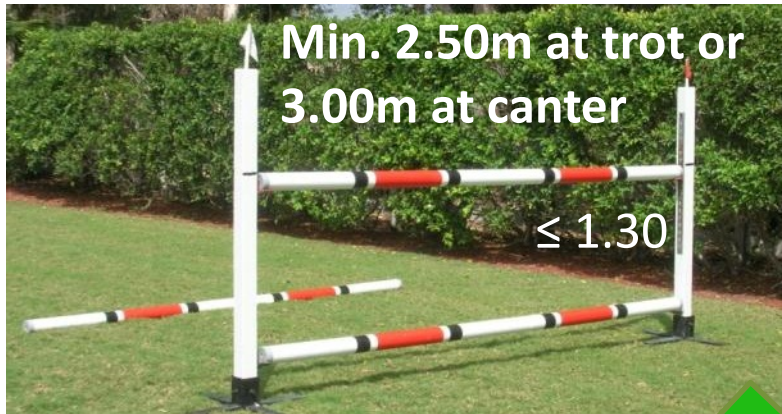

Clarification on 28 January 2017

Art 201.5.2 Placing poles

- 5.2. Placing Poles: if there is enough space placing poles may be used and placed on the ground not closer than 2.50 m on the take-off side of a vertical obstacle not exceeding 1.30 m in height. A placing pole may be used on the landing side not closer than 2.50 m when the obstacle is jumped at the trot or three metres if at the canter. Any pole placed approximately six metres or more from an obstacle on either side or on both sides is not considered a placing pole and is therefore allowed to be used with both verticals and oxers.

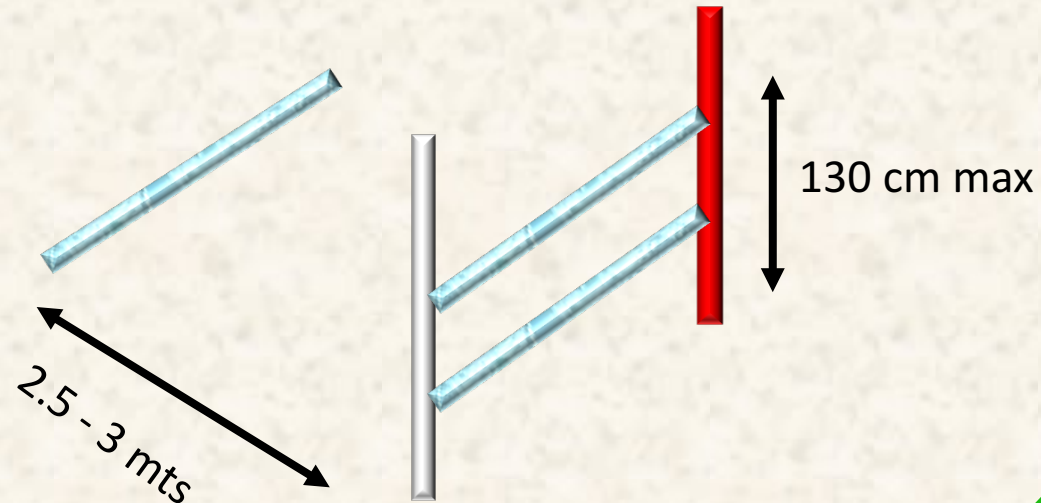

Art 201.5.2 Placing poles

2016/2017

Art 201.5.2 Placing poles

Only at a vertical, maximum height 1.30 mt

2016/2017

**If a pole is on the ground approx 6 mts away from the obstacle,
it is NOT a placing pole, just a pole on the ground**

Not considered a placing pole

~6 mts

1.30 max

As this is not
considered a placing
pole, the 1.30 mt
height restriction does
not apply, just the
restrictions of the class
in progress

2017

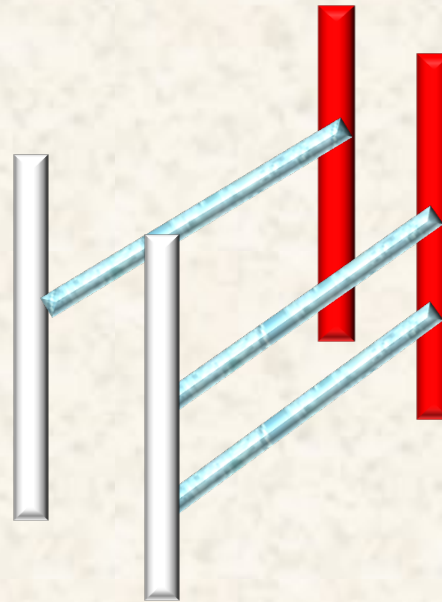

**If a pole is on the ground approx 6 mts away from the obstacle,
it is NOT a placing pole, just a pole on the ground**

Not considered a placing pole

~6 mts

2017

1.30  max

As this is not considered a placing pole, the 1.30 mt height restriction and only at a vertical rules do not apply, just the restrictions of the class in progress
