

Ali Küçük (TUR)

My motivation to stand for election in IJOC Board:

I have enjoyed my time as rider in jumping and dressage competitions followed by judging in the last 20 years nationally and internationally. This was later coupled with administrative positions as Secretary General first in Turkish National Federation and then in the European Equestrian Federation (EEF) in Warendorf. Therefore, I consider myself fortunate to have the background of both “on-site” and “administrative” functions. Furthermore, having already served for one term in the IJOC Board, I believe I can further support the development of our Club in a more efficient manner.

Today our sport is developing in many aspects. In particular, youth, higher level competitions and number of events, sponsorships etc.

We as officials and institutions need to follow and lead these changes.

It will be an honour for me to be an IJOC Board member and to contribute my part to this already improving institution. Working together to realise the above changes/goals which actually set my reasons of motivation.
